

## Intelligent Video Telematics Solution

*Extraordinary, Versatile, Outstanding*

# K165 | K265

MiTAC K165/265 is one of the most advanced all-in-one connected digital camera solution. K165/265 can help fleet managers evolve from tracking only technology to the new video telematics era. Built in with powerful Qualcomm® QCS610 processor enhances the AI computing power. The Andorid Platform simplified both system and cloud integration. High speed 4G LTE allows remote live view to ensure operators have full awareness over the whole fleets. The dual SD card design avoids any slow card status occurred. The K165/265 is the ultimate connected digital recorder for those who need the ultimate demand.

### Always connected

- Built-in 4G LTE Cat.4 & dual-band WIFI
- Over-the-Air firmware & setting updates
- Bluetooth® 5.0 BLE, NFC / HF RFID

### Track your fleets in real-time

- Comprehensive satellite tracking
- Automotive dead reckoning (ADR) for precise positioning even in adverse conditions (optional)
- 3-axis G-sensor and Gyro support

### Reliable and flexible platform

- Qualcomm® Octa-core & Android™ 10
- Open APIs & SDK for seamless integration with fleet management solutions

### Get the full picture of your vehicles

- ECU integration to acquire vehicle and engine telematics data \*
- All video footage are safely stored both on the SD card and Cloud
- Embed powerful AI

### Dual SD card slots

- Options for dual SD card recording under multi-channel operation scenario

### Expandable channels

- Expand up to 5 extra cameras

\* Only when equipped with Smart Cable
