

Intelligent Video Telematics Solution

Extraordinary, Versatile, Outstanding

K165 | K265

MiTAC K165/265 is one of the most advanced all-in-one connected digital camera solution. K165/265 can help fleet managers evolve from tracking only technology to the new video telematics era. Built in with powerful Qualcomm® QCS610 processor enhances the AI computing power. The Andorid Platform simplified both system and cloud integration. High speed 4G LTE allows remote live view to ensure operators have full awareness over the whole fleets. The dual SD card design avoids any slow card status occurred. The K165/265 is the ultimate connected digital recorder for those who need the ultimate demand.
